An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Ramon Klitzke on July 1, 2005.

The application has been amended as follows:

Claims 16-28 have been canceled.

Applicant asked for reconsideration of the restriction requirement as it relates to claims 1-15 and 17-20. After review, the restriction is proper. Claim 1 recites that the sealing member has a horizontal portion which extends over the lid. This is a positive recitation. Claim 1 is directed to the apparatus and the lid. Claim 17 is directed to only the apparatus because no positive limitations to the lid or cup are present. Claim 17 is more narrow than claim 1 in the respect that the gripping member is sized and shaped to securely engage and extend at least one-half way around the cup. For this reasoning, the restriction is proper.
